Statement

To: Karl Peters TLDA
Cc: Joe Baptista
Regarding: Clarification of status INAIC Society & INAIC Foundation v/s www.inaic.com
Date: December 3, 2008, BUSSUM, The Netherlands

Dear Karl,

I hereby send you the official statement of the INAIC Vereniging (Society) and the INAIC Stichting (Foundation) of which I am both the sole chairman. Both organizations have been founded on July 19th 2005. I enclose an official copy of the registration of both companies at the Companies House in the Netherlands (Kamer van Koophandel).

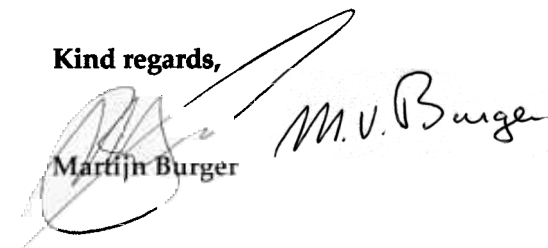

Both organizations were established with the following meanings:

- INAIC Vereniging— all registrants of TLDs through Public-Root/UNIDT, should be able to become member of the Society and be able to select a representative in the board of the INAIC Stichting. Through their membership each TLD-holder should have a vote in shaping the future of the Public-Root
- INAIC Stichting— All the shares of the (dormant) Public-Root Ltd., the company that signed the contract with UNIDT, are held by the INAIC Foundation. The INAIC Stichting was established to become the policy body of the Public-Root and to managed by the various stakeholders, through their board. This board should contain a chairman, a representative of the internet community, a representative of the TLD-Holders, a representative of the Public-Root and a representative of UNIDT

However due to the actions that were taken against Public-Root by certain individuals and the dissolved contract between UNIDT & Public-Root, Both the INAIC Foundation and the INAIC Society have never become operative. From the day of their establishment both organizations haven't been operative. I can also state that the current website; www.inaic.com, and their activities are not under the control of both the INAIC Society & Foundation. Also the Public-Root Ltd., is not the legal entity under which the www.Public-Root.com is operating as it was replaced by the Public-Root Limited Ltd.

I hope this statement provides you with the required information, and if you require additional information do not hesitate to contact me.

Kind regards,

Martijn Burger
